

Nancy-Brabois University of Applied Sciences (IUT) - FRANCE

CAROUSEL WEEK 2026

▶ Creating and online Collaborating

The international carousel week programme features several social and technical activities. You will be part of a team composed of students coming from Malta, Italy and France. **Your goal will be to operate a little mobile robot. You will have to set up sensors, command the motors and program the microcontroller in between. You will also participate in social student activities.**

▶ Discovering a company in the electrical engineering sector

The visit of a company will be an opportunity to discover how an electrical engineering company operate.

▶ How to apply?

Contact the Carousel Week coordinator of your home university.
